Vizag Summit 2023

Global Pharma & Health is an international event that brings together leaders, entrepreneurs, and industry experts to discuss the latest trends, innovations, and challenges in the world of technology. The Global Pharma & Health is a platform for networking, sharing knowledge, and showcasing cutting-edge technologies that are transforming industries and driving economic growth around the world.

The Global Pharma & Health 2023 typically focuses on discussing the latest developments and trends in the medical, technology, automotive, construction, agriculture and food industries, as well as exploring new ideas and opportunities for collaboration and innovation.

The Global Pharma & Health offers a unique opportunity for attendees to see demonstrations and presentations from leading companies and emerging startups on a variety of topics. The summit will feature keynotes, panel discussions, workshops and interactive sessions, allowing attendees to engage in content and interaction.

One of the major themes of the Global Pharma & Health is innovation. Speakers will share stories about how they are using technology to solve complex problems, revolutionize traditional industries, and create new opportunities for growth. We also discuss the importance of fostering a culture of innovation within your organization and the role of education and training in developing the skills needed to succeed in the digital age.

Global Pharma & Health brings together business leaders, policy makers, and other experts to discuss major global issues and the role technology can play in solving them. These summits provide a platform for attendees to learn about the latest technological developments in various fields and industries and to network with other experts and experts in the field. It also helps attendees stay up to date with new phases of technologies and trends, and can also provide inspiration and ideas for future projects and initiatives.

The Global Pharma & Health also highlights the importance of diversity and inclusion in the tech industry. It also features speakers from a variety of backgrounds and perspectives; the summit encourages attendees to think about how technology can be used to promote equity and inclusion in organizations and communities.

Global Pharma & Health 2023 is an invaluable resource for those working in the technology industry and those interested in the latest trends and developments in the field. It provides a platform for attendees to learn, network, and stay connected with the broader technical community. The Global Pharma & Health 2023 will also host panel discussions and workshops, allowing attendees to participate in deeper discussions on specific topics. These events are also a great way for attendees to connect with potential customers and partners and find new job opportunities.

GLOBAL PHARMA & HEALTH SUMMIT

Paris was a vibrant city known for its rich cultural heritage and booming economy. The city had many attractions such as Notre Dame Cathedral, the Louvre Museum and the Palace of Versailles. During the 16th century, artists such as Leonardo da Vinci and Michelangelo settled in Paris, and the city's art scene flourished.

The city's economy also grew, supported by the rise of trade and commerce. Paris became a banking and financial center, with many wealthy merchants and financiers setting up offices in Paris. The textile industry also played an important role in the city's economy, and Paris became known for its high-quality fabrics and luxurious fashion.

Overall, Paris was a culturally and economically important city in her fifteenth century. Its charm and artistic heritage have drawn tourists from all over the world, and its growing economy has provided business opportunities. Today, Paris remains a global commercial and cultural center, and its history and heritage still shape the city's identity.

RIYADH 2023 JULY, 17-18

G20 GLOBAL PHARMA & HEALTH SUMMIT

Riyadh is the capital and largest city of Saudi Arabia and is located in the central part of the country. Known for its rich history and culture, it is known as the center of business and trade in the Middle East.

One of Riyadh's main attractions is the Masmak Fort, a historic site that played a key role in shaping the modern Saudi state. The city also boasts the stunning Kingdom Center, a skyscraper with an observation deck offering panoramic views of the city.

In recent years, Riyadh's market and economy have grown rapidly. Hosting numerous international events such as the Formula E electric car race and the Riyadh Season Cultural Festival, it has grown into an innovation hub that attracts local and international entrepreneurs.

NEW YORK 2023 JULY, 24-25

G20

GLOBAL PHARMA & HEALTH SUMMIT

New York City, also known as the Big Apple, is one of the most famous cities in the world. New York is the largest city in the United States and a global center of finance, culture, and entertainment.

The city's attractions range from the world-famous Statue of Liberty and Empire State Building to bustling Times Square and tranquil Central Park. Visitors can also explore the city's diverse neighborhoods, including trendy SoHo and Greenwich Village, and bustling Chinatown and Little Italy.

New York City has one of the world's most dynamic economies, with industries as diverse as finance, technology, media, and fashion. The city's economy has grown steadily in recent years, and today the New York Stock Exchange and Nasdaq are among the world's leading financial centers in the city.

Additionally, the city's real estate market continues to thrive, with new developments sprouting up across the city. With its iconic sights, diverse culture, and booming economy, New York City continues to be a premier destination for both travelers and businesses.

G20

GLOBAL PHARMA
& HEALTH SUMMIT

Tokyo, the capital of Japan, is one of the most populous and dynamic cities in the world. Known for its unique blend of ancient traditions and modern technology, it has become an attractive destination for travelers from all over the world.

One of his most famous attractions in Tokyo is the Tokyo Skytree, the tallest tower in Japan, offering stunning views of the city. Other popular spots include Sensoji Temple in Asakusa, the bustling Shibuya Crossing, and the beautiful Imperial Palace.

In recent years, Tokyo's economy has experienced remarkable growth and has become a major global economic engine. The city is home to many leading companies in the technology, finance and automotive industries and has a strong presence in the global market. Additionally, Tokyo is a hub for innovation and creativity, with a thriving startup scene and growing interest in sustainability and green tech.

TORONTO 2023 AUGUST, 07-08

G20 GLOBAL PHARMA & HEALTH SUMMIT

Toronto is Canada's largest city and is located in Ontario. From world-class museums to iconic landmarks to bustling markets, it's a multicultural and diverse city with something for everyone.

One of Toronto's most famous landmarks is the CN Tower, the tallest free-standing communications tower in the Western Hemisphere. Visitors can also explore the city's diverse neighborhoods, including the historic Distillery District, trendy Queen Street West and colorful Kensington Markets.

Toronto's economy has grown steadily in recent years, driven by technology, finance and healthcare industries. The city is home to many major companies, including Shopify, Royal Bank of Canada, and Toronto-Dominion Bank.

Additionally, Toronto is emerging as a center of innovation and entrepreneurship, with a growing startup scene and a strong focus on sustainability and green technology. Overall, Toronto is a vibrant and diverse city that is experiencing significant economic and cultural growth. A mix of history, culture and innovation, this city is a destination that should be on every traveler's list of places to visit.

G20

GLOBAL PHARMA
& HEALTH SUMMIT

Melbourne is Australia's second largest city and is located in the state of Victoria. A cosmopolitan and culturally rich city known for its stunning architecture, world-class cuisine and thriving arts scene.

His one of Melbourne's main attractions is Federation Square. Federation Square is a bustling cultural center that hosts events and exhibitions throughout the year. Other attractions include the Royal Botanic Gardens, Melbourne Museum and Melbourne Cricket Ground.

Melbourne's economy has seen steady growth in recent years, driven by the financial, healthcare and technology sectors. The city is home to many major companies such as BHP Billiton, ANZ Bank and CSL Limited.

Additionally, Melbourne has emerged as a center of innovation and entrepreneurship, with a strong start-up scene and a strong focus on sustainability and green technology.

ADA DYNDO

Principal Consultant – Europe, European Business and Technology Centre, India

The European Business and Technology Centre (EBTC) is a non-profit organization that was established in 2008. Its primary objective is to promote and facilitate the development of European businesses and technologies in India.

EBTC works in close collaboration with various European Union (EU) institutions and Indian stakeholders to provide a platform for business and technology cooperation between Europe and India. The organization provides a range of services to European businesses and research organizations, including market intelligence, business partnering, innovation management, and project management.

EBTC focuses on several key areas of technology, including advanced manufacturing, clean technologies, energy, environment, healthcare, and biotechnology. The organization also offers support to Indian companies interested in investing in Europe or developing partnerships with European businesses.

DR. P V G D PRASAD REDDY

*Hon'ble Vice Chancellor
 Andhra University, India*

Andhra University is a public university located in Visakhapatnam, Andhra Pradesh, India. It was founded in 1926 and is one of the oldest universities in India. The university offers undergraduate, postgraduate, and research programs in various fields such as Arts, Science, Engineering, Law, Pharmacy, and Education. The university is recognized by the University Grants Commission (UGC) and is accredited by the National Assessment and Accreditation Council (NAAC) with an "A+" grade. Andhra University is also a member of the Association of Indian Universities (AIU) and the Association of Commonwealth Universities (ACU).

Dr. T V Narayana

National President, Indian Pharmaceutical Association, India

The Indian Pharmaceutical Association (IPA) is a professional organization for pharmacists and pharmaceutical professionals in India. Established in 1939, it is one of the oldest and largest organizations of its kind in the country, with over 25,000 members.

The IPA's mission is to promote the development of the pharmaceutical profession and industry in India and to serve as a platform for networking and knowledge sharing among its members. It also advocates for policies and regulations that support the growth of the pharmaceutical sector in India, including initiatives to improve access to healthcare and affordable medicines for all.

Dr. Srinubabu Gedela

CEO, PULSUS GROUP, UK

Pulsus is a medical publishing company that specializes in peer-reviewed medical journals, books, and conference proceedings. The company was founded in 1984 and is headquartered in Ontario, Canada.

Pulsus publishes over 50 medical journals covering various fields such as cardiology, dermatology, gastroenterology, hematology, neurology, oncology, and many others. The company also publishes medical books and hosts medical conferences and events around the world.

Pulsus has a global reach and collaborates with researchers, scientists, and healthcare professionals from around the world to publish high-quality research and promote medical education. The company has a strict peer-review process for all its publications, ensuring that the research published is of the highest quality and meets the standards of the medical community.

Overall, Pulsus plays an important role in the medical publishing industry, providing a platform for researchers to share their work and contribute to the advancement of medical science.

Dr. Kiran Saliki Reddy

Group CEO, Andhra Pradesh Electronics and IT Agency, India/IT Secretary Government of Andhra Pradesh

Andhra Pradesh Electronics and IT Agency (APEITA) is a government agency in the Indian state of Andhra Pradesh that is responsible for promoting and developing the information technology (IT) and electronics industries in the state.

APEITA was established in 2014 with the goal of transforming Andhra Pradesh into a knowledge-based economy and creating employment opportunities in the IT and electronics sectors. The agency works with companies in the industry to provide support in the form of infrastructure, funding, and other resources to help them establish and grow their businesses in the state.

Some of the initiatives taken by APEITA include setting up IT parks, incubation centers, and innovation labs to provide a platform for startups and established companies to develop and showcase their products and services. The agency also offers training programs and skill development initiatives to equip the workforce with the necessary skills and knowledge to compete in the industry.

COMMODORE AMIT RASTOGI

*CMD, National Research Development Corporation,
Govt of India*

The National Research Development Corporation (NRDC) is a public sector enterprise under the Ministry of Science and Technology, Government of India. It was established in 1953 with the primary objective of promoting, developing, and commercializing indigenous technologies from various fields of science and technology.

The NRDC acts as a bridge between academia, industry, and government by identifying promising technologies, evaluating their commercial potential, and providing financial, technical, and managerial support to develop them into marketable products and services.

The NRDC provides a range of services to innovators, entrepreneurs, and researchers, including technology transfer, intellectual property management, patenting, licensing, incubation, and funding. It also collaborates with national and international organizations to promote technology development and transfer.

Dr. Nava Subramaniam

National Coordinator for Civil20 group on Technology, Security and Transparency, India

Civil20 (C20) is one of the official engagement groups of the Group of Twenty (G20) consisting of civil society organizations from around the world. The C20 engages with the G20 on various issues such as climate change, human rights, and economic development. The group on technology is one of the working groups under the C20.

The C20 group on technology focuses on issues related to the use of technology for social and economic development, digital inclusion, and the impact of technology on human rights. The group aims to bring the voices of civil society organizations to the G20 discussions on technology-related issues and advocate for policies that are inclusive, equitable, and protect the human rights of all individuals.

Some of the key areas of focus for the C20 group on technology include access to digital infrastructure, data protection and privacy, digital inclusion, cybersecurity, and the regulation of emerging technologies such as artificial intelligence and blockchain. The group works closely with other working groups and engagement groups under the C20 and engages with relevant stakeholders to bring about positive change in the global technology landscape.

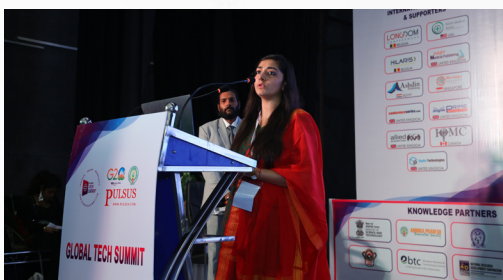

PRAGYA CHATURVEDI

British High Commission, New Delhi, India

The British High Commission is the diplomatic mission of the United Kingdom in a foreign country. It represents the interests of the British government in that country and is responsible for promoting political, economic, cultural, and social ties between the UK and the host country.

In India, the British High Commission is located in New Delhi and has several consulates in other cities such as Mumbai, Kolkata, and Chennai. The High Commission is led by the British High Commissioner to India, who is appointed by the UK government.

The British High Commission in India works towards strengthening the partnership between the UK and India in various areas such as trade, investment, education, science, and culture. The High Commission also provides consular services to British nationals living or travelling in India, including assistance with visas, passports, and emergency situations.

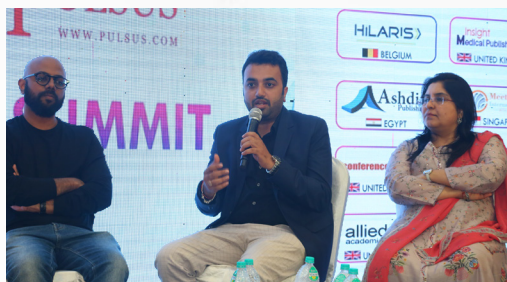

SARIKA GULYANI

Digital Bharat Session on “Embracing Technology and Empowering Society” by Federation of Indian Chambers of Commerce & Industry, India

FICCI stands for the Federation of Indian Chambers of Commerce and Industry. It is one of the oldest and largest industry associations in India, established in 1927, with a membership of over 250,000 companies from various sectors.

FICCI works to promote and protect the interests of the Indian business community, and to enhance the competitiveness of Indian industry in the global marketplace. It plays a crucial role in policy advocacy and facilitates dialogue between the government and the private sector, providing inputs for policy formulation and implementation.

The organization also organizes various events, seminars, and conferences to promote knowledge sharing and networking among its members. FICCI has a range of committees, task forces, and industry divisions that work on specific sectors, such as manufacturing, services, healthcare, education, and infrastructure.

Prof. PRADEEP SRIVASTAVA

Executive Director, Technology Information Forecasting and Assessment Council, India

The Technology Information Forecasting and Assessment Council (TIFAC) is an autonomous organization established in 1988 under the Department of Science and Technology of the Government of India. Its mandate is to undertake technology forecasting, technology assessment, and technology innovation in various sectors of the economy.

TIFAC aims to promote technology development and its application in the country by identifying areas where technology interventions are necessary and facilitating the creation of appropriate technologies. It works in collaboration with various stakeholders, including government agencies, industry, academia, and research institutions, to develop and commercialize new technologies.

Some of the key initiatives of TIFAC include the Technology Vision 2035, which outlines the technological challenges facing the country and the strategies to address them, and the Technology Development and Transfer Program, which facilitates the transfer of technology from research institutions to industry.

Dr. ABHIJIT GHOSH

Assistant Drug Controller, Central Drug Control Organization, India

The Central Drugs Standard Control Organization (CDSCO) is the national regulatory body for pharmaceuticals and medical devices in India. It was established in 1961 and functions under the Ministry of Health and Family Welfare of the Government of India.

CDSCO's primary mandate is to regulate the import, manufacture, distribution, and sale of drugs and medical devices in the country to ensure their safety, efficacy, and quality. The organization is responsible for granting licenses to pharmaceutical companies and medical device manufacturers, and it also oversees the conduct of clinical trials and the approval of new drugs and medical devices.

CDSCO also works in close collaboration with other regulatory agencies, such as the World Health Organization (WHO) and the United States Food and Drug Administration (USFDA), to ensure that its regulatory processes are in line with international standards.

Dr. T ANIL KUMAR

CEO, Andhra Pradesh Innovation Society, India

ravi varma

Andhra Pradesh Innovation Society

The Andhra Pradesh Innovation Society is a government initiative in the Indian state of Andhra Pradesh to promote innovation, entrepreneurship and startup culture. The society aims to create a supportive ecosystem for startups, facilitate access to funding and mentorship, and provide infrastructure and resources to help startups grow.

The society offers various programs and initiatives to support startups, including incubation programs, acceleration programs, funding opportunities, and networking events. It also partners with various organizations and institutions to provide access to mentorship, expertise, and resources.

The Andhra Pradesh Innovation Society also operates a startup incubator called the Atal Incubation Centre, which provides startups with access to infrastructure, resources, mentorship, and funding. The incubator focuses on startups in the areas of agriculture, healthcare, education, and sustainability.

OMPRAKASH NAKKA

విశాఖ కీర్తి కిరీటంలో కలికితురాయి గ్లోబల్ టెక్ సమ్మిట్

విశాఖ కీర్తి కిరీటంలో కలికితురాయి గ్లోబల్ టెక్ సమ్మిట్ జరగనుంది. విశాఖ నగరాన్ని కార్యనిర్వాహక రాజధానిగా ప్రకటించడంతో జాతీయ, అంతర్జాతీయ సదస్సులకు వేదికగా మారింది. ముద్రా నగరం విశాఖ ఇప్పుడు సమ్మిట్లు, కాన్ఫరెన్స్ లతో అందరి దృష్టిని ఆకర్షిస్తోంది.

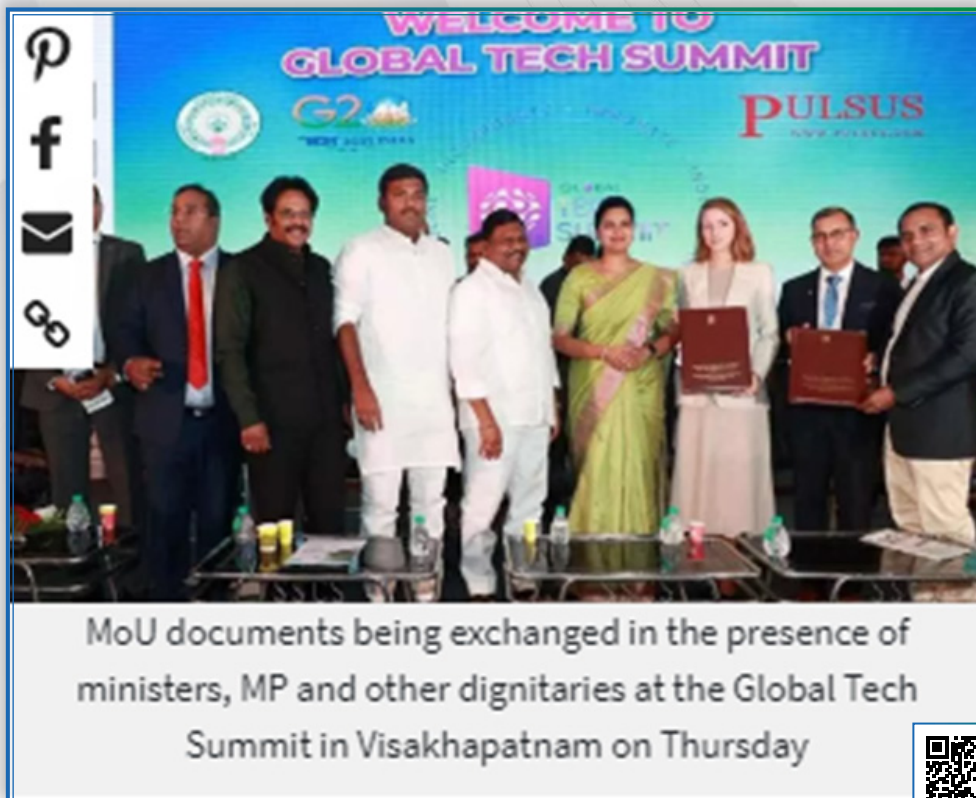

గ్లోబల్ టెక్ సదస్సులో వయ్యమంచి వరకు ప్రతినిధులు 20 దేశాలతో పాటు మరో 25 దేశాలకు చెందిన 300 మంది ప్రతినిధులు 300 వరకు ఇటీ కంపెనీలు పాల్గొన్నాయి. ఆరునెలల వ్యవస్థ పెద్ద కులను ఇక్కడి పరిస్థితులకు అనుగుణంగా ఎలా అనుసరించాలి, వ్యవసాయ ఉత్పత్తులను ఎలా ఎగుమతి చేయాలి, అమెరికన్లైన నాన్-ఆగ్రికల్చరల్ కులకు కలికితురాయి పై చర్చ జరిగింది. యూరోపియన్ విజ్ఞాన కేంద్రం విశాఖలో ఏర్పాటు చేయనున్నారని వ్యవసాయ పెద్దలకు పై ఇక్కడి వారి అభిమానం కల్పించారు. కలికితురాయిలో జాతీయ కీర్తి కిరీటంలో కాన్ఫరెన్స్ పాల్గొనడం ప్రజలకు సులభంగా, తక్కువ ధరకు మందులు లభించే దానికి, ఫార్మా ఎడ్యుకేషన్ రంగంలో టెక్నాలజీ ఎలా అభివృద్ధిపడుతుందనే అంశాలపై చర్చ జరిగింది. ఈ సదస్సు మంజ్రులు, గుడివారి అమరనాథ్, విదదల రాజిని, సీదిరి అప్పారాజు, పీడికా రాజన్న దొర, విశాఖపట్నం పార్లమెంట్ సర్దులు అంబేద్కర్ సత్యనారాయణ కలికితురాయి పాల్గొన్నారు.

Andhrula Galam | February 16, 2023 | Vizag

The Global Pharma & Health also aims to provide a platform for collaboration on global economic issues such as trade, investment, job creation, and infrastructure development.

Visakhapatnam is the venue for national and international conferences since the city was declared the executive capital. The metropolis of Visakhapatnam is the center of attention for summits and conferences. Ministers, Gudivada Amarnath, Vidadala Rajini, Seediri Appalaraju, Peedika Rajanna Dora, Member of Parliament Visakhapatnam, MVV Satyanarayana, and others attended the meeting.

A European Business Technology Center was established in Visakhapatnam to inform agricultural practices here.

MoU documents being exchanged in the presence of ministers, MP and other dignitaries at the Global Tech Summit in Visakhapatnam on Thursday

The Hans India | February 17, 2023 | Vizag

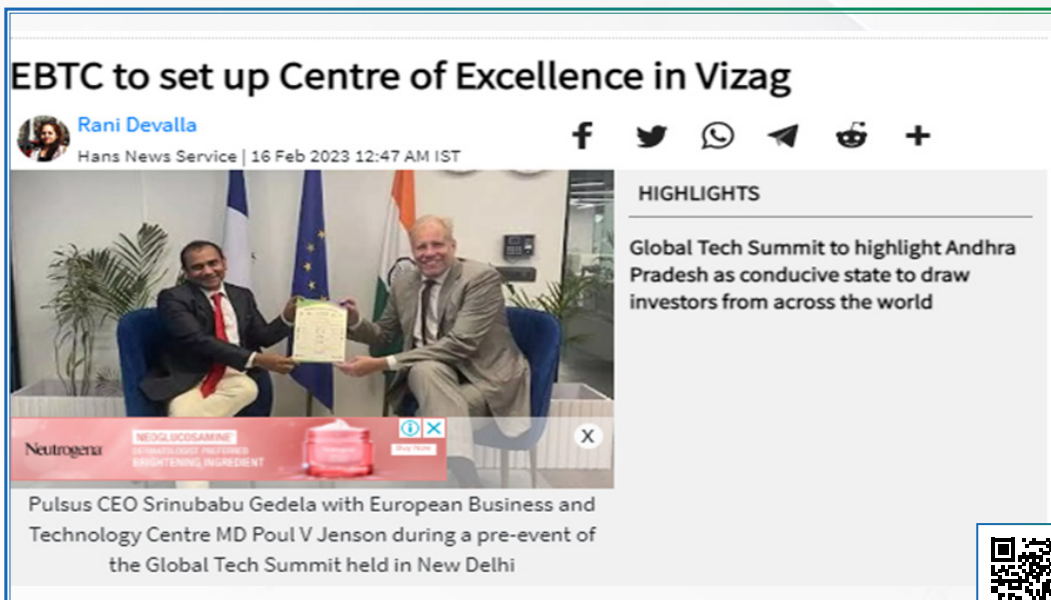

Visakhapatnam: Focusing on how advanced technology could be incorporated in the fields of health, technology, food processing, agriculture, IT, pharma, finance and other areas, a two-day Global Pharma & Health (GTS) started on a grand note in Visakhapatnam on Thursday. Deputy Chief Minister Rajanna Dora Peedika, IT Minister Gudivada Amarnath, Health Minister V Rajini, Visakhapatnam MP MVV Satyanarayana, Andhra University Vice Chancellor PVGD Prasad Reddy, among others inaugurated the summit formally at VMRDA Children’s Arena. Speaking on the occasion, the Deputy Chief Minister said many tribal businesses struggle due to stiff competition from their urban counterparts because they lack resources to market their products effectively.

Addressing the gathering, Health Minister Vidadala Rajini mentioned that digital technology has transformed the way people live, work, and learn. “And now, it is transforming healthcare and medical education as well. One of the most significant benefits of digital health is the ability to provide personalised treatment and remote care to patients.

Deccan Chronicle | February 17, 2023 | Vizag

Dr. Srinubabu Gedela, co-convenor of the Global Pharma & Health and CEO of Pulsus Group, expressed his excitement about the series of events that covered a range of topics including artificial intelligence, machine learning, cyber security, block chain and fintech. Procedures for the start of around 20 startups were finalised on Friday while around 100 startups showcased their innovations.

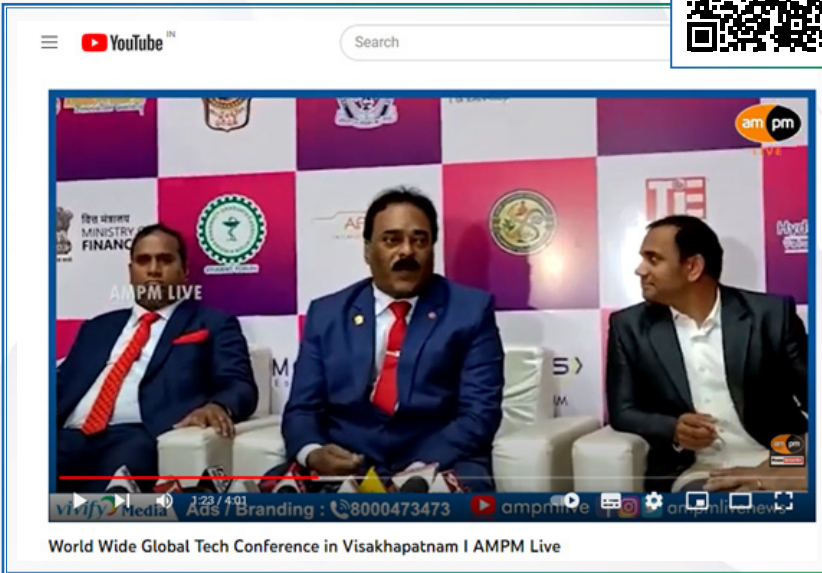

The Hans India | February 16, 2023 | Vizag

The collaborative endeavour would align a local university, a research centre and an organisation, paving the way for a multitude of opportunities for the farmers across Andhra Pradesh to adopt best practices through technology transfer. Plans are also afoot to help the farmers of the state to focus on export-oriented crop production.

India is the third largest producer of pharmaceuticals in the world. Every other pill taken by people around the world is manufactured by the Indian pharmaceutical industry, explains the National Chairman of Indian Pharmaceutical Association (IPA) TV Narayana.

Sharing the stats at his Summit on Global Tech, he proudly said that half of his vaccines administered are manufactured in India and that 40% of his generic drugs are sourced from India. said.

After setbacks in the pharmaceutical sector, Narayana said weather conditions affect the production of active pharmaceutical ingredients. "Vishakapatnam's humid climate makes it difficult to achieve large-scale pharmaceutical manufacturing," he said. But with the right technology applied, this too could be solved," he suggests. China's dominance, price restrictions, and other aspects in the bulk drug supply chain are impacting the domestic bulk drug manufacturing sector, said the IPA's national representative.

The summit on the first day showcased various advances and new technologies in the fields of pharmacy, education, and digital health.

"The event brought together his 400 technology leaders and his 1,000 delegations from 25 countries. One of the highlights was the National Development and Reform Commission (NRDC) and the European Business Technology Center. (EBTC) signed a memorandum of understanding."

This event will be a part of the global Pharma & Health series of events scheduled across the G20 nations, including Riyadh, Seoul, Tokyo, Rome, Paris, New York, Melbourne, Beijing, London, Tokyo, and New Delhi, throughout 2023.

For representational purposes

Indian Express | February 16, 2023 | Vizag

At the Global Pharma & Health series of round table discussions, business and technological professionals from all around the world convened to talk about urgent global challenges and look into potential for international cooperation.

The summit, which is slated to take place in Vizag from February 16–17, 2023, is anticipated to draw experts from the technical, financial, and research fields from around the world who will engage in a number of high-level discussions and debates on upcoming technologies that will change the course of history and turn scarcity into abundance.

The CEO of Pulsus, Dr. Srinubabu Gedela, stated, “The Indian research and start-up today has several problems, from discovery to commercialization, and we cannot manage these concerns alone.” “International cooperation is necessary if we want to advance and create a better future for everyone. We have benefited much from the chance to come together at this summit, exchange ideas, and create new alliances that will enable us to do this.

The organizers of the Global Pharma & Health have already planned the series of activities, which will continue to be a crucial forum for global cooperation and idea exchange among G20 countries.

BIOVOICE NEWS | January 23, 2023

The pharmaceutical industry is buzzing with anticipation for the Global Pharma & Health 2023, set to take place in Visakhapatnam from February 16–17. Recently, the Global Pharma & Health team, led by Dr. Srinubabu Gedela, CEO of Pulsus Group, held a ground-breaking roadshow and business-to-biopharma digital transformation policy design meetings in Nagpur as part of the 72nd Indian Pharmaceutical Congress.

This historic event brought together 50 influential policymakers, global pharma experts, and other decision-makers to discuss how the Global Pharma & Health is becoming a revolutionary platform for the application of cutting-edge technology in drug discovery, regulatory affairs, and making medicine more affordable for all.

During the Round Table Series of Biopharma Digital Transformation Policy Deliberations, participants heard from key figures in the industry about the challenges facing regulators in digital healthcare.

The Hindu | January 23, 2023

Ahead of the Global Pharma & Health (GTS) 2023, to be held in Visakhapatnam on February 16 and 17, the global Pharma & Health team led by Srinubabu Gedela organized a roadshow and business-to-biopharma digital transformation policy design meetings as part of the Indian Pharmaceutical Congress (IPC) in Nagpur on Sunday.

Nearly 50 policymakers, global pharma experts and other decision makers expressed their insights on how the global Pharma & Health is becoming a platform for the application of technology in drug discovery, regulatory affairs and to bring affordable medicine.

Bio Spectrum | January 23, 2023

The pharmaceutical sector is excited about the Global Pharma & Health 2023, which will be held in Visakhapatnam on February 16-17. The Global Pharma & Health team, led by Dr Srinubabu Gedela, CEO of Pulsus Group, recently hosted a roadshow and business-to-biopharma digital transformation policy design conference in Nagpur as part of the 72nd Indian Pharmaceutical Congress, which will be place between January 20th and 22nd, 2023.

The Global Pharma & Health brought together 50 influential policymakers, global pharma experts, and other decision-makers to discuss how the event is becoming a revolutionary platform for the application of cutting-edge technology in drug discovery, regulatory affairs, and making medicine more affordable for all.

Participants heard from important industry experts on the problems facing regulators in digital healthcare during the Round Table Series of Biopharma Digital Transformation Policy Deliberations.

DST official appreciates Global Pharma & Health initiative

The Hindu | January 13, 2023

The Global Pharma & Health, according to Dr. Anita Aggarwal, Head Department, Technology Development Transfer, Department Science and Technology, is a “very good forum” for technology experts. Individuals, entrepreneurs, and start-ups can exhibit their work and take advantage of monetization prospects.

The Global Pharma & Health is an important platform not only for India but for the entire world,” said Dr. BK Sahu, regional director of the National Research Development Corporation

At a meeting held with the 2023 Global Pharma & Health leaders in Hyderabad today, Dr. Anita Aggarwal, Head Department, Technology Development Transfer, Department Science and Technology, praised the 2023 Global Pharma & Health in Vizag as a “very good platform” for technology professionals. Individuals, entrepreneurs, and start-ups to present their work and take advantage of opportunities for commercialization.

The 2023 Global Pharma & Health in Vizag has done amazing things by encouraging cooperation and generating economic prosperity via the transfer of research into technology. “The Global Pharma & Health team is collaborating with India’s top technology transformers from IIT, DST, and CSIR,” Dr. Anita Aggarwal added. “It’s a great opportunity for scholars and start-up entrepreneurs to further advance their cooperation in science, its transformation into technology, and its commercialization.”

Visakhapatnam: Global Tech Summit’s roadshow organised in Nagpur

January 23, 2023 06:27 pm | Updated January 26, 2023 10:07 am IST - Visakhapatnam

THE HINDU BUREAU

Ahead of the Global Tech Summit (GTS) 2023, to be held in Visakhapatnam on February 16 and 17, the global tech summit team led by Srinubabu Gedela organised a roadshow and business-to-biopharma digital transformation policy design meetings as part of the Indian Pharmaceutical Congress (IPC) in Nagpur on Sunday.

Nearly 50 policymakers, global pharma experts and other decision makers expressed their insights on how the global tech summit is becoming a platform for the application of technology in drug discovery, regulatory affairs and to bring affordable medicine.

Dominique Jordan, president of International Pharmaceutical Federation, said that digital transformation can benefit the pharmaceutical industry in a variety of ways, including improved drug development, patient care and interaction. Technology helps to make medicine more affordable and accessible, reduces carbon footprint and it improves supply chain transparency, he said.

THE HINDU | January 23, 2023

Anita Aggarwal, Head of the Department, Technology Development Transfer, Department Science and Technology, appreciated the initiative and stated that the summit being held in Visakhapatnam will provide the ideal platform for technology professionals, individuals, entrepreneurs, and start-ups to present their work and take advantage of commercialization opportunities at a meeting organized by Global Pharma & Health-2023 initiators in Hyderabad on Friday.

Professionals and specialists in science and technology from various institutions, IITs, DSTs, and CSIRs will take part.

“The Global Pharma & Health is an essential platform not just for India, but also for the rest of the globe,” said B. K. Sahu, regional director of the National Research Development Corporation. He emphasized various worldwide projects, including those relating to mass healthcare and the integration of health and science, that are set to benefit mankind.

The summit is being held in Visakhapatnam on February 16-17, said Srinubabu Gedela, Global Pharma & Health lead organizer, and Pulsus Group Founder and CEO.

The summit is an initiative of the Andhra Pradesh government and the Indo-American Chamber of Commerce, the Pulsus Group, and supported by some of the major players in the field of technology, research and development, he said.

VISAKHAPATNAM: The Vizag Tech Summit 2023 poster was launched by the Indo-American Chamber of Commerce, Jonathan Heimer, Minister Counsellor for Commercial Affairs, United States Embassy, New Delhi, and Srinubabu Gedela, CEO and Managing Director of Pulsus Group, here on Tuesday. Speaking on the occasion, Srinubabu said, "We wanted to bring insight into future trends in the tech industry and bring together the finest global minds."

Echoing his views, Kiran Kumar Reddy, group CEO, APETIA, Government of Andhra Pradesh, opined that Vizag Tech Summit is becoming the go-to platform for investors. The tech summit organisers hope that it will in due course of time rival similar events in Mangalore and other cities, given the potential of the Steel City. It will be held in the city on February 16 and 17.

Srinubabu, the driving force behind the summit, is an experienced hand, having organised such summits across the world over the years. Several industry leaders like Srikanth Badiga, vice-chairman of Export Promotion Council for EOUs & SEZs, Government of India, C Narayan Rao, chairman, Indo-American Chamber of Commerce AP and Telangana, Ch Rajagopal Choudary, chairman, Devi Fisheries Ltd, Sourabh Jain, head aerospace and airport city business, GMR International Airport Ltd, and others were present.

The objective of the Global Tech Summit, to be held here on February 16 and 17, is to showcase the potential of Visakhapatnam to emerge as a IT hub and to attract software companies to set up their development centres in the city, Minister for Industries and IT Gudivada Amarnath said.

Addressing a press meet along with convener of the Global Tech Summit Srinubabu Gedela on Wednesday, Mr. Amarnath said that Chief Minister Y.S. Jagan Mohan Reddy was keen on making Vizag a 'Beach IT destination'. There were already around 30,000 people working in the IT sector in the city. Infosys is expected to begin operations soon, and a few more IT majors have evinced interest in setting up operations in Vizag, Mr. Amarnath said. Pulsus and WNS together have 7,000 employees in Vizag.
