ELIGIBILITY

Any G20 country national student at BS/MS/BTech/MTech/MSc/BPharm/MPharm/MBA or any master degree are eligible to submit the poster

The abstract submission deadline for the poster competition will be Feb 06, 2023

Abstracts must be submitted online or via email.

Shortlisted abstracts for the event will be notified via email and will also be displayed on the website.

All shortlisted poster presenters should indeed register before the abstract submission deadline.

AWARDS JUDGEMENT CRITERIA

The judgment will be done by Board of Jury.

You will be given about 5-7 minutes to present your poster and answer questions.

During the poster evaluation, judges may seek information.

Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research.

If the winner(s) is/are not present at the time of announcement, the decision will be distorted.

The judge's decision will be final, and no further interpretation will be provided.

GLOBAL TECH SUMMIT VIZAG- FEB 16-17, 2023

Important Notes for Students, Scholars, and Entrepreneurs

Aim your gaze upwards, not down at the feet Global Tech Summit

Student Poster Competition is held to encourage students and recent graduates to present their innovative research, which will be published in international journals. All accepted abstracts will be presented at the conference poster sessions. The Global Tech Summit aims to offer a forum for all promising scientists and researchers to present their research work and share their perspectives on the conference's theme.

To take advantage of the membership discount on your participation or presentation of a poster or innovation ideas, or to become a startup deck presenter for the Global Tech Summit being held in any G20 country, become a member before submitting your abstract, proposal, or award nomination.

Join now Global Tech Summit

Read all instructions and complete all tasks.

The submission site will guide you through submitting step-by-step.

Submit additional data to support your research abstract, innovative idea, or startup presentation. Abstracts or innovative ideas that have no details will be rejected.

Yearly membership fees are non-refundable and entitle you to a maximum of two events per year in any of the G20 countries that host Global Tech Summits organized by us.

Instructions & Guidelines for Poster Presentation

Eligibility

- All students are welcome to participate in this competition (Graduates, Post Graduates, and Research Scholars not above the age of 35).
- The abstract submission deadline for the poster competition will be one month before the conference date (subject to change), so all participants are encouraged to submit their abstracts well in advance.
- The abstract should cover all of the participant's information (e.g., abstract title, name, affiliation, abstract and biography, etc).
- Abstracts must be **submitted online** or via **email**. Shortlisted abstracts for the event will be notified via email and will also be displayed on the website.
- If a registered author/poster presenter is unable to attend the summit, he or she may send a substitute, who may be a co-author (or) any member of the same institution. If the winner is a substitute, he or she will receive the award in lieu of the registered author/contestant.
- Young researchers have the opportunity to learn about their peers' research subjects in order to enhance their capacity as multidisciplinary researchers.
- All shortlisted poster presenters should indeed **register** before the abstract submission deadline.

Poster Presentation Benefits

- In the form of a poster presentation, you will receive the unique opportunity to combine visual and oral explanations of your projects.
- Best Poster Award: Three best posters will be awarded at the summits closing ceremony.
- The accepted poster abstracts will be published in highly indexed and supporting International Journals with a unique DOI provided by CROSSREF.
- The best posters will be given the opportunity to publish the full work in supporting International Journals at a reduced execution fee.

- **Judging Criteria**
- The judgement will be done by the Board of Jury.
- When the competition is being conducted, each participant should be ready in front of his/her poster to answer all questions from the judges.
- During the poster presentations, the judges will come to your poster. Once the program is finalized, you will be notified of the presentation schedule. However, you will be notified of the preliminary schedule one month before the conference.
- You will be given about 5-7 minutes to present your poster and answer questions. During the poster evaluation, judges may seek information.
- Judges will even evaluate the student's enthusiasm towards their study, interest, and knowledge in the area of their research.
- The winners will be announced at the summits closing ceremony. If the winner(s) is/are not present at the time of the announcement, the decision will be distorted.
- You may be present at the poster in addition to the judging time to share your research with interested delegates.
- The judge's decision will be final, and no further interpretation will be provided.

POSTER GUIDELINES

1. The poster should be 40" x 59" or 1X1.5 Sq. Mts. in size.

2. Space your information proportionally: divide your poster either horizontally or vertically into three or four sections, and place your materials within those spaces.

3. Make use of large text (at least 18-24 pt.; headings 30-60 pt.; title >72 pt.)

4. Cropping, Margins, and Spacing: Make sure all edges and margins are straight and even. Don't overcrowd and be attentive to balance from top to bottom and from the side margins. Organize your elements into columns.

5. White space: (the area not covered with text or graphics): Not too much (or the viewer's eye will wander). Not too little (or you'll confuse and overwhelm your viewer)

6. The following information should be included on posters.

Title (authors and affiliations) (with authors and affiliations)

- Introduction / Goals / Objectives
- Methods
- Results / Conclusion
- References
- Acknowledgments
- Contact information

7. Posters should stimulate discussion rather than provide a lengthy presentation. As a result, keep text to a minimum, illustrate graphics, and ensure that every item in your poster is required.

8. During a poster presentation, no computers or other aids may be used.

9. Posters should be placed in the designated areas two hours before the poster session and removed at the end of the day.

10. Keep your poster presentation to ~15 minutes per visitor/judge (10 min discussion & 5 min query session).

11. During the poster evaluation, each poster can be presented by a maximum of two presenters.

12. Use tubular packaging or a portfolio case to transport your poster to the meeting. Please do not send your poster to the Summit headquarters or the meeting site.
